

Muhammad Usman

MERN Stack Developer | App Developer | Cybersecurity

Gujranwala, Pakistan | +92-324-5953435 | usman.mughal0770@gmail.com | github.com/usmancodehub

PROFESSIONAL SUMMARY

Motivated MERN Stack and App Developer with hands-on experience building full-stack web applications, RESTful APIs, and mobile apps using React.js, Node.js, Express.js, MongoDB, and Flutter. Holds CEH certification with growing skills in vulnerability assessment and network security. Currently pursuing a Bachelor's degree in Information Technology with a strong record of self-directed academic and personal projects. Seeking to contribute technical and security-focused skills to an international team while continuing to grow as a full-stack, mobile, and security-minded developer.

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS, Java

Frameworks & Technologies: React.js, Node.js, Express.js, JSP

Databases: MongoDB, MongoDB Atlas, MySQL

Mobile Development: Flutter, Java (Android/XML)

Cybersecurity: Ethical Hacking, Vulnerability Assessment, Network Security

Tools & Other: Git, GitHub, VS Code, RESTful APIs, API Integration, Server & Network Configuration

CERTIFICATIONS

- Certified Ethical Hacker (CEH)

EXPERIENCE

Academic & Personal Projects

Blood Bank Donation Website

Sep 2025 – Dec 2025

- Developed a web-based platform connecting blood donors with recipients.
- Implemented donor registration, secure login, blood group search, and request management features.

Library Management System (Backend)

Oct 2025 – Nov 2025

- Engineered the backend using Node.js, including database management for books and users.
- Designed a responsive UI and built RESTful APIs for the book issue and return process.

Todo Application (Full Stack)

Nov 2025 – Dec 2025

- Created a task management application in Node.js with full CRUD functionality and database integration.

ShareMart App (Web & Mobile)

- Delivered a marketplace-style application available on both web and mobile platforms.

Translation Language App

- Programmed a mobile application for translating text between multiple languages.

Footstep Counter App

- Built a mobile app to track and count user footsteps.

EDUCATION

BS Information Technology — University of the Punjab

2023 – Present

CGPA: 3.27 / 4.00

Intermediate (ICS) — Be Superior College

2021 – 2023

Matriculation — Government Comprehensive School

2019 – 2021

ACTIVITIES & INTERESTS

- Reads books regularly to continuously learn new technologies and strengthen technical skills through self-study.
